

Planning Matters

Aldi Development

Aldi, discount food retailer, is proposing to develop a new discount food store on Countesswells Road, close to the Dandara housing development.

The proposals would see a new, food store development to serve Hazlehead.

The proposed scheme will deliver a 1,315 sq.m net food store, with associated parking and landscaping. New pathways are also proposed to the newly developed housing estate to the north, together with an internal walking route enabling easier and safer access to the store, whilst encouraging travel by sustainable means.

The proposals are at an early stage and no planning application has been submitted to Aberdeen City Council at this stage. Aldi would like to hear your views about our ambitions for a new store at Hazlehead which could be open as early as March 2022.

Aldi Store - The proposed Aldi Store will deliver a 1,868 sqm (19,870 sqft) gross / 1,315 sqm (14,154 sqft) net foodstore, plus staff welfare and storage areas.

Parking - 112 car parking spaces including 7 accessible, 10 parent & child bays and 2 electric charging spaces. The proposals will also include 8 cycle spaces.

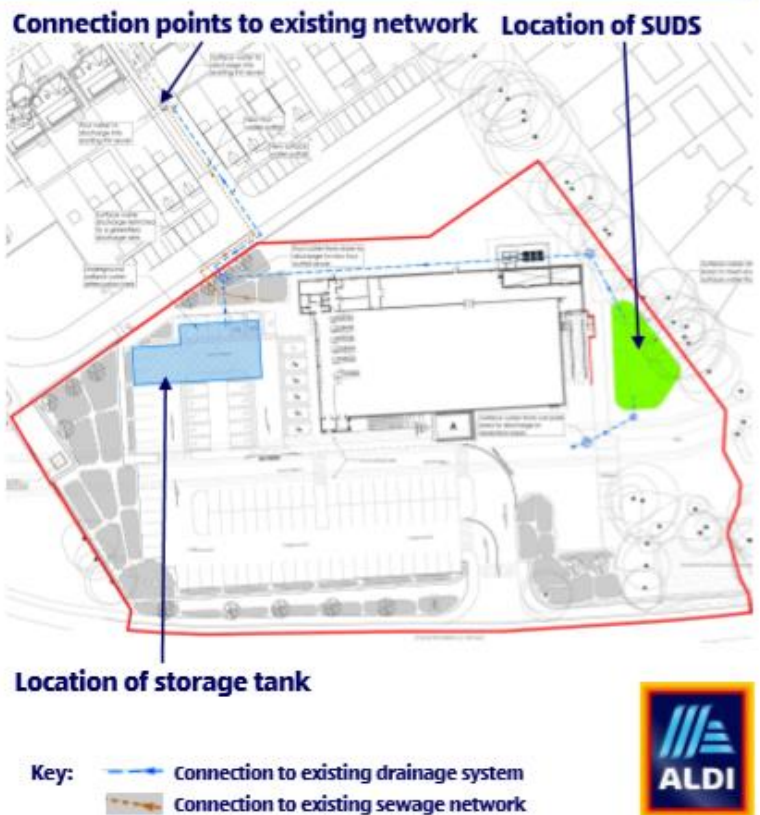

DRAINAGE AND FLOODING

As part of the planning application, Aldi are required to fully consider drainage and flood risk matters and ensure that there is no impact on nearby properties.

In line with current guidance Aldi need to ensure that the proposed surface water flows from the site be restricted to mimic a greenfield discharge as if the site had not been developed.

In order to achieve this, Aldi's proposals involve the installation of a Sustainable Urban Drainage System (SUDS) to the east of the store (in green), which is linked to an underground storage tank to the west of the site (blue box). In the event of an extreme storm, the system would keep any water on the site, and discharge it into the existing drainage network (to the north of the site) at a controlled rate to avoid any flooding taking place. This system will be further supported by filter trenches underneath the car park area.

Full details of the proposed drainage scheme will be included in a submitted Flood Risk and Drainage Assessment as part of the formal application.

Aldi held an online question and answer session for local residents to find out more about the plans, on Friday 29th May between 16:00 and 19:00

A planning application was submitted to Aberdeen City Council on 30th June 2020: the deadline for submitting comments is 23rd July.

DRS Facility & Operational Characteristics

- Standard units will have a number of customer facing recycle points for glass, can and PET.
- Each customer facing unit is capable of collecting up to 60 containers per minute.
- At the end of each deposit a customer will be recompensed at a rate of 20p per unit deposited.

Facebook Poll –92 votes

Object: 29 = 33%

Support: 59 = 67%

Aldi's private consultation

In total they received 308 formal feedback forms, 88 of these were via the website and 220 via post. From these, 67.2% were in support, 32.5% objected, and 0.3% (1 person) didn't respond.

In terms of reasons for response:

- Support:
 - More retail provision
 - Reduced travel time/convenience of location
 - Good links to surrounding areas (pathways etc)
- Objections:
 - Traffic Issues
 - Enough retail stores nearby
 - Impact on nearby residential amenity/property value

15th July 2020

Dear Mr Evans,

Application Number: 200659/DPP. Type: Detailed Planning Permission: Land at Countesswells Road Aberdeen. Proposal: Erection of Class 1 (shops) retail unit with associated car parking, access, landscaping and associated works Applicant: Aldi Stores Ltd., Pottishaw Road, Bathgate, EH48 2FB.

We have written this letter in the knowledge that most of the public respondents to the above referenced planning application are supportive.

In our Community Council's Facebook poll, 67% of respondents supported the proposed development. Similarly, the Council website of official representations showed 60% support.

Supportive comments, which we consider pertinent, include the ease of its accessibility by the new communities of Hazlewood and Countesswells, and the residents of Craigiebuckler, Airyhall, Braeside and surrounding area.

Easy and safe access to the proposed store by foot will be facilitated by the planned extension to the pavement.

It is our opinion that the proposed retail development, by virtue of its intended proximity to the populous communities in the west of the city, will be an inducement for customers to access it by modes of 'active travel' such as walking and cycling.

We also bear this in mind by noting that the proposed development is intended to be situated opposite the entrance to the Robert Gordon Playing Field, home to the Gordonian Sports Clubs. Consequently it is our opinion that, considering the anticipated increase in vehicular traffic in the vicinity of the entrance to the playing fields, the developer's proposal should have included the provision of a pelican crossing near the junction of the entrance to aid the safety of pedestrians who cross Countesswells Road to access that amenity and, conversely, customers crossing over to access the store.

A bus stop should also be provided nearby so that elderly people and customers with mobility problems can access the store.

We have been informed that 16 meters long articulated lorries will deliver stock to the store. Although there is no available information concerning the directions of travel of the large delivery vehicles, these are significant factors because they have the potential to adversely affect the quality of the lives of the residents of Countesswells Road.

Although we acknowledge that the traffic movements on Countesswells Road, which is only about 8 meters wide, have been reduced by virtue of the route through the new Countesswells housing development, which connects it with the A944, we are also aware that there are times when it is busy with vehicular traffic travelling to and from the densely populated communities to the west of the city. Therefore we submit that Countesswells Road may be unfit to be a shared route between those large delivery vehicles and other forms of vehicular traffic during the rush hours and at the times when pupils are arriving and departing from Airyhall Primary School.

Such additional vehicular movements, generated by the proposed development, may increase the risk of road traffic incidents involving pedestrians, particularly the pupils of Airyhall Primary School.

It is noted that the application proposes the formation of a car park and associated access. The intense light emitted by the headlights of cars entering or leaving the carpark could adversely impact upon the amenities and the nearby properties in Pinewood Gardens.

The houses most likely affected in Pinewood Gardens are close to the perimeter of the planned carpark. We also contend that other properties in Pinewood Gardens will be similarly affected.

The level of illumination for the carpark (15 – 20 lux) will, in our opinion, tend to intrude on neighbouring private residences. For example, homes in Pinewood Gardens may well have light from the carpark shining on their upper storeys.

The noise from traffic (including the delivery vehicles) entering and leaving the carpark is likely, in our opinion, to disturb the residents of nearby homes.

We conclude that Aldi's proposed retail development is welcomed by a significant majority of the residents whom we represent. Its intended location, with its links to an infrastructure of paths, has much to merit it as an environmentally friendly concept, but we also think that the planning application could be improved by the inclusion of strategies to mitigate the issues which we have described in this representation.

Yours sincerely,

William Sell,

Chair.

Aberdeen Local Development Plan – Proposed Plan 2020

Aberdeen City Council has progressed to the next stage of the preparation of its development plan and published its Proposed Local Development Plan. You may previously have commented on the Aberdeen Local Development Plan - Main Issues Report (MIR) in early 2019.

You can view responses to all of the comments made to the MIR on our webpage: <http://www.aberdeencity.gov.uk/aldp2022>

The Proposed Aberdeen Local Development Plan (Proposed Plan), Proposed Delivery Programme and associated background documents were approved by Full Council on Monday 2 March 2020. It was agreed the Proposed Plan, Proposed Delivery Programme and Environmental Report would be published as part of a statutory period of representation in public.

1.0 Background (continued)

Zone A – Background

The drawing to the right illustrates the approved layout submitted for Zone A in the 2013 MSC application.

This layout addressed the siting, massing and design of the development Zone and reflected the connectivity and landscape strategies set out in the Masterplan. The layout was for 50no large detached four and five bedroom houses.

10no houses have since been built in the north west corner of this development Zone (highlighted in orange).

Image of houses built in North West of Zone A - approved MSC 2013

Zone A -approved layout MSC 2013

In response to the market conditions in 2017, it was identified that there was a strong demand for the provision for care facilities for older people and approval for a 81-bedroom Care Home, together with 4no houses in the north west corner of the site, was obtained.

As background information to the planning application, the street layout to the remaining unbuilt houses was re-drafted to show a single access point into the south east corner of the development Zone off the main access road.

Zone A -approved layout for 81-bedroom Care Home and 4no Houses 2017

1.0 Background (continued)

Zone A – Background

In 2019, a review was carried out into the remaining undeveloped areas within the Pinewood Hazledene Masterplan. The remaining areas in Zone A were included in this review with planning approval for the revised layout being given on 28th August 2019. An NMV for minor adjustments was granted in March 2020.

Identification of Tree(s) and Works Proposed

Please indicate the tree(s) and provide a full detailed specification of the works you want to carry out.

Give details of the species of the tree(s) and include an accurate plan showing positions(s) of the tree(s) in relation to buildings, named roads and boundaries. A group of trees can be treated as one. If the trees are protected by a TPO, please try to number them as shown in the First Schedule to the Tree Preservation Order (for example T3 Oak; two Beech and one Birch in G2; seven Ash in A1; sycamore in W1). You may submit a schedule of works.
